To whom it may concern,

Hereby I attest that Jeremias Garay Labra, RUN 17.515.758-1, is a PhD student finalizing his graduate work at the Bernoulli Institute of the University of Groningen, and he has actively participated in the following tasks:

- He co-supervised four students' thesis, with the following titles:
 - *Accelerated 4D Flow MRI Scans Using Physical Subspaces* (bachelor project, 2019)
 - *Automation of Backflow Stabilisation Parameters* (bachelor project, 2019)
 - *Compressed Sensing in 4D Flow MRI* (master project, 2021)
 - *Hemodynamic severity in iliac artery lesions* (master project, 2022)
- He has actively participated in the development of the research code of our group. His contribution is being now used by other PhD and Master students for their projects, and also being currently used in clinical trials for cardiovascular diseases.

Sincerely yours,

Cristóbal Bertoglio
Professor in Computational Mathematics
